Class assignment where the students were grouped to carry out a small survey and presented in a mini symposium.

Each group shall present their survey in 10 minutes. The mini symposium is opened for public.

About 135 participants attended the symposium, but only 75 participants fill out the evaluation form. **Of these 75 participants, 53.3% were non-i3L students/lecturers.**

# MINI SYMPOSIUM

## FROM AGRICULTURE, FOOD AND SOCIETY COURSE

All of the participants expressed that the program was very interesting and they are waiting for more interesting topics.

LESSONS LEARNED

# WHAT ARE THE PROS AND CONS ABOUT WEBINAR?

- Reach more audience from wider areas and wider diversity.
- Greater collaboration – distance and time differences are circumvented.
- Lower resources are needed.

## PROS

## CONS

- Technical problems – internet connection, other practicalities.
- Conflicting schedule of multiple webinars.
- High withdrawal from registered audience (between 30-50%).
- Cannot control audience distraction.

# WHAT ARE THE KEY SUCCESS TO HOLD WEBINAR?

- **Good program and speakers.**
  - Duration of webinar is not more than 3 hours.
    - Send multiple reminders.
- Provide quota for certificate or proof-of-attendance; or given only for those who fill out the evaluation survey.
  - Streamlined via YouTube to cater more audience.
- For information and educational purposes, some gimmick gifts may be helpful to attract audience.
  - Provide contact information for further engagement.

Thank You
